

COMPANY PROFILE

SUMBAI SOLUTION CO., LTD.

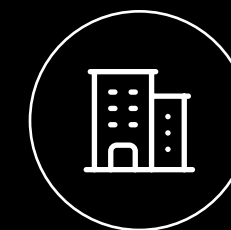

Sumbai

We develop websites, applications, and business systems that leverage technology to improve efficiency, solve business challenges, reduce costs, and create greater value at every stage of your business.

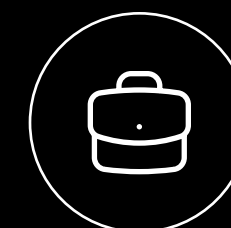

COMPANY STORY

SUMBAI SOLUTION CO., LTD.

Founded

Founded by a team of experienced professionals with expertise in end-to-end system design and development. We work with flexibility and a practical approach, creating solutions that respond to the evolving needs of the digital era.

What We Offer

We design and develop websites, applications, and custom systems tailored to each client's unique needs from corporate websites and e-commerce platforms to business management systems and beyond.

Quality & Care

We are committed to quality, industry standards, data confidentiality, and system performance. From the initial concept and design through development, delivery, and ongoing support, we work closely with our clients every step of the way.

BRAND STORY

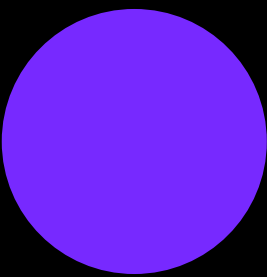

Logo

The logo is built around the initials “SS,” representing the company name, combined with the concept of Infinity (∞) to symbolize limitless technological possibilities and a commitment to continuous growth and improvement.

Curved Lines

The curves of the letterforms are thoughtfully designed to create a look that feels modern, simple, and confident reflecting the balance between technology and design at the core of our approach to quality development.

Purple

Purple represents creativity, innovation, and a forward-thinking vision reflecting the fusion of technical expertise and creative thinking to create distinctive, meaningful, and valuable solutions.

OUR STRENGTHS

Fast, Without Compromise

We move quickly without compromising quality working systematically, improving continuously, and delivering solutions that create real results.

Continuous Growth

We believe in continuous learning and improvement, staying ahead of change so our clients can move forward with confidence.

More Than a Service Provider

We go beyond simply delivering projects we take ownership and stay committed to the long-term success of every solution we build.

Honest & Transparent

We believe in clear and transparent communication from pricing and timelines to every step of the process so our clients always know what to expect.

DEVELOPER TEAM

O1

Proven experience in designing and developing software solutions for businesses across a wide range of industries.

O2

End-to-end full-stack capabilities, from database architecture and API development to server-side management, ensuring efficient, reliable, and seamless performance

O3

Building well-structured, secure, and scalable systems designed to support business needs today and enable sustainable growth for the future.

DESIGNER TEAM

Crafted by an experienced team, combining thoughtful design with seamless usability.

Skill :

- ✓ UX Research
- ✓ Visual Design

- ✓ Wireframing
- ✓ Interaction Design

- ✓ Prototyping
- ✓ Design System

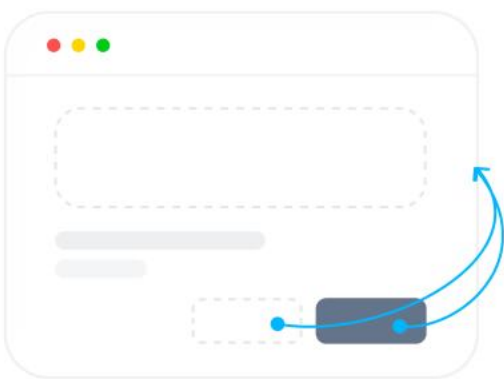

UX Research & Strategy

Research user behavior and define information structures and user flows aligned with business goals.

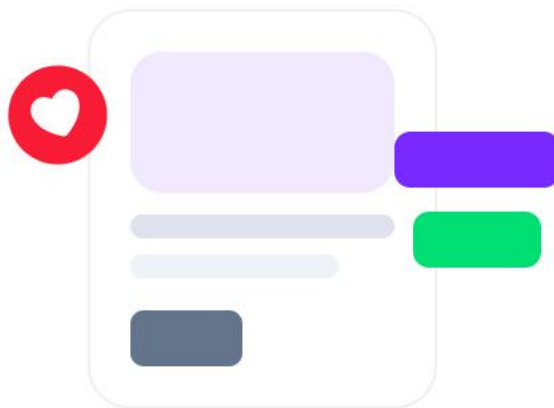

Wireframe & Prototype

Create wireframes and interactive prototypes to visualize and validate the application experience before development.

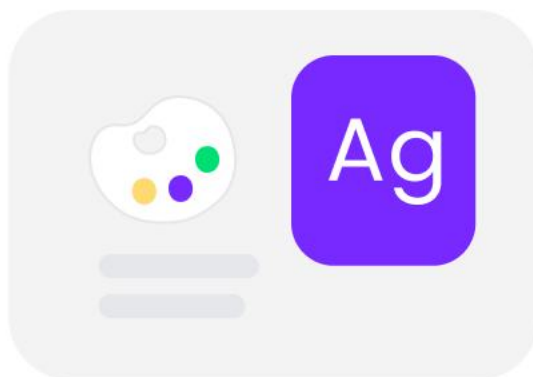

UI Design

Design modern, visually consistent interfaces that reflect the brand identity and adapt to different devices through responsive design.

Design System & Guideline

Create a reusable design system and guidelines that help development teams build and maintain consistent interfaces.

Sumbai
